

SHANKAR A R

Senior Full Stack Developer

Nagercoil, Tamil Nadu, India | +91 9363016522 | arshankaralwar@gmail.com

LinkedIn: <https://www.linkedin.com/in/shankar-azhwar>

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 4 years of experience building scalable, performance-optimized web applications using React.js, Next.js, Node.js, Express.js, NestJS, TypeScript, MongoDB, and PostgreSQL. Delivered features on a retail media platform processing billions of records, designed REST APIs and database schemas, integrated machine learning services with web and backend systems, and led code reviews, technical planning, and mentoring in Agile teams. Strong in API and database performance optimization, production support, and end-to-end feature delivery.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Responsive UI

Backend: Node.js, Express.js, NestJS, PHP, Laravel, REST API Design, Microservices, Kafka, Redis

Databases: MongoDB, PostgreSQL, MySQL, SQL, Schema Design, Query Optimization

Cloud & DevOps: AWS, Azure, Docker, CI/CD, Git, GitHub

Concepts: Authentication (JWT), RBAC, API Integration, Scalability, Performance Optimization, Large-Scale Data Processing, Machine Learning Integration

Practices: Agile/Scrum, Code Review, Technical Planning, Mentoring, Production Support, Incident Resolution

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

Jul 2022 – Jun 2026

App Innovation Technology, Coimbatore, India (promoted from MERN Stack Developer to Senior Developer)

- Built and maintained Node.js, Express.js, and NestJS services and RESTful APIs in TypeScript, along with React.js and Next.js interfaces.
- Designed and optimized scalable database schemas in MongoDB, PostgreSQL, and MySQL to support complex application workflows.
- Improved API and database performance, reducing response times and stabilizing production releases.
- Collaborated on frontend and backend architecture, contributing to technical planning and decisions for scalable, reusable modules.
- Conducted code reviews, guided debugging, and mentored developers to maintain high engineering standards.
- Managed the full feature lifecycle from requirements and development to deployment, production support, and incident resolution.
- Integrated machine learning services and native mobile applications with web and backend platforms.

PROJECTS

Footprints AI – Retail Media Platform

Senior Developer

React.js, Node.js, TypeScript, MongoDB, PostgreSQL

- Developed campaign, audience-targeting, analytics, reporting, and workflow modules across frontend and backend.
- Engineered scalable data-processing workflows handling billions of records and events across multiple brand and retailer partnerships.
- Implemented user tracking, audience segmentation, and campaign delivery features.
- Contributed within a ~24-member engineering team supporting 40+ brand and retailer relationships.

Instant.ro – Romanian Automotive Platform

MERN Stack Developer | 2022 – 2023

React.js, Node.js, Express.js, JavaScript, TypeScript, REST APIs

- Developed reusable React components and RESTful API endpoints for core listing and transaction workflows.
- Integrated third-party services and improved page load speed and API response times through frontend and backend optimizations.

Crawler AI - Web Data Extraction Platform

Backend Developer

PHP, Laravel, MySQL, REST APIs

- Built a Laravel backend that automatically crawls automotive websites and stores structured data in MySQL.
- Developed scraping and parsing modules for varying site structures; exposed data through REST APIs to downstream ML and ad-publishing workflows.
- Monitored crawl runs to maintain data reliability.

EDUCATION

B.E., Computer Science and Engineering

2016 - 2020

James College of Engineering and Technology, Nagercoil, Tamil Nadu, India

LANGUAGES

English, Tamil
